Return to User

Recent Sync History

The three most recent synchronizations are logged below. More information can be found in the [Complete Sync History](#).

[Wed Oct 06, 1999 12:32:44] (12 seconds)

HTTP/1.1 404 File not found(404) - http://localhost/device/brand/avantgo/images/device/CE_header.gif

[Wed Oct 06, 1999 12:32:34] (0 seconds)

Completely out of sync, resequencing...

[Wed Oct 06, 1999 12:31:35] (13 seconds)

HTTP/1.1 404 File not found(404) - http://localhost/device/brand/avantgo/images/device/CE_header.gif

Clear Channel Cache

During synchronization, the server updates existing channels and pages with modifications only. Clearing the channel cache will force all the channels and pages to be transferred to the device during the next synchronization.

Clear Cookies

Cookies containing profile information about you are placed in your user profile by the sites that you visit. Clearing the cookies database may remove personalized information stored on your device by the web servers that you visit. Clearing cookies will disable the "remember me" feature from the login prompt.

Clear Authentication Info

Some web servers require you to supply a user name and password to access the site. The server caches this authentication information and supplies it to the web server during synchronization. Clearing the authentication database will usually require you to reenter your user name and password the next time you visit a site that requires authentication.
